

AMMO CHEST PARTITIONS

When customer orders an Ammunition Chest from Steen Cannon & Ordnance Works we have to determine how much detail is require. Our standard ammunition chest is built to all government standards and comes with center partition. This chest sales for \$2,800.00. If the customer wants standard partitions for smooth bore cannon & inside tray, we charge an additional \$200.00. For rifled guns, we still charge only \$200.00 for the additional partitions and tray, however if the customer desires the complete partitions with the round separators installed to the partitions, then we charge an additional \$150.00 in addition to the standard partition charge. The following are pictures of the inside of our ammo chest.

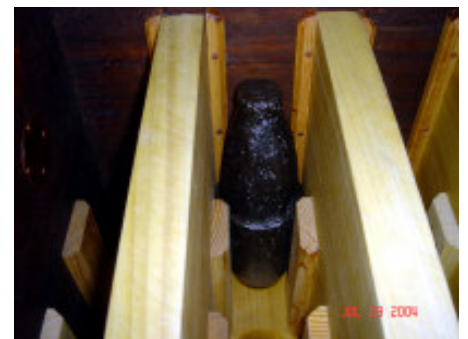

SMOOTHBORE

RIFLED GUN

Pictured above is standard partitions for smooth bore cannon, the rifled gun partitions will include the partitions but not the round dividers as pictured.

Pictured above is the detail of our partitions with the round separators and fuse protectors. This additional partition work is \$150.00 extra in addition to the standard partition charge.
